MUKESH K

Java Full Stack Developer | Spring Boot, React & SQL

Chennai, Tamil Nadu • kmukeshkumar2335@gmail.com • +91 93456 70169 • LinkedIn: Mukesh K • GitHub: MukeshK2335

PROFESSIONAL SUMMARY

Full-stack developer working across Java and Spring Boot on the backend and React on the front end, with hands-on exposure to MySQL, REST APIs, Docker, and AWS. Has independently designed and developed three full-stack projects — an AI-assisted onboarding platform, a sensor-driven health-monitoring system, and a real-time donor-matching platform — applying Core Java, OOP, and the Collections Framework alongside modern web tooling. Comfortable working with JUnit, Mockito, Postman, and Maven within an Agile workflow. Ranked India Rank 184 (Global Rank 548) in IEEE Xtreme 17.0, placing 1st in the ECE department, and holds certifications in SQL, React.js, and Frontend Development. Looking to bring this full-stack foundation to a development team building real-world web applications.

TECHNICAL SKILLS

- **Programming Languages:** Core Java
- **Java & OOP:** OOP Principles, Collections Framework, Exception Handling, Java 8 Features, Multithreading
- **Data Structures & Algorithms:** Arrays, Strings, Searching, Sorting, Recursion, Tree Traversal
- **Backend & APIs:** Spring Boot, REST APIs, JDBC
- **Web Technologies:** HTML5, CSS3, JavaScript, React (Vite)
- **Database:** MySQL, Oracle SQL, Joins, Subqueries, CRUD, Normalization, Views, Indexes, Query Optimization
- **Testing & Methodology:** JUnit, Mockito, Postman, Agile
- **Tools & Cloud:** Git, GitHub, Maven, Docker, AWS

PROJECTS

HexaBoard — Smart Learning & Onboarding for Freshers

- Built an AI-based onboarding platform that helps freshers track their learning and lets admins monitor progress in real time.

Paw Care — Smart Dog Health Monitoring & Zoonotic Defense System

- Designed a smart dog health-monitoring and zoonotic-defense system integrating AI analytics and sensor data for real-time health tracking and early disease detection.

Simplify — Flight Ticket Booking

Technologies: Spring Boot, React, REST API, Postman, AWS

- Built a flight ticket booking application with a Spring Boot backend and React front end, exposing REST APIs tested using Postman and hosted on AWS.

EDUCATION

Bachelor of Electronics and Communication Engineering — *2022 – 2026*

Panimalar Engineering College, Chennai | CGPA: 8.49

Higher Secondary Education (HSC) — *2021 – 2022*

Velammal Matriculation School, Chennai | HSC: 82.5%

INTERNSHIP

Web Development Intern — Cognifyz Technologies — *March – April 2025*

- Collaborated on live web development projects, focusing on full-stack development and responsive web applications.
- Practiced data structures, algorithms, and problem-solving concepts through structured technical exercises.

EXPERIENCE

IEEE RMC — Website Committee Co-Chair — *6 Months – Ongoing*

- Co-leading the website committee, overseeing planning, execution, and ongoing maintenance of website updates and improvements.
- Coordinating with team members to maintain site content, structure, and overall functionality.

IEEE Yesist12 — Website Committee Volunteer

- Contributed to building and maintaining the website's front-end and back-end components.

CERTIFICATIONS

- SQL
- React.js
- Frontend Development

ACHIEVEMENTS

- **IEEE Xtreme 17.0** (Global Competitive Programming Contest) — Global Rank 548, India Rank 184; ranked 1st in the ECE Department.
- Winner, Hackatronics 2025, organized by UNO MINDA & Panimalar Engineering College.
- Presented an international project at IEEE YESIST12, Malaysia.
